

SAFE SEAL WRAP

Non-Fire Retardant Shrink Wrap

Non-Fire Retardant Shrink Wrap is commonly used for scaffolding, temporary roofs, abatements, storage, transport, and marine.

MATERIAL:	Virgin Polyethylene
THICKNESS:	6 mil – 12 mil (0.006 – 0.012 inch)
COLOR:	White
WIDTH:	5.2 m to 17.7 m / 17' – 58'
LENGTH:	30 meters

Precautions:

This product is not fire-resistant and should not be used in high-risk fire environments. It's also not a substitute for permanent construction materials. Ensure proper installation and secure all loads to avoid damage during use.

Applications:

Ideal for general weather protection in non-fire-risk areas. Suitable for use across Residential, Commercial, Industrial, and Civil sectors — including construction, transport, marine, and storage.

PRODUCT CODE	THICKNESS	SIZE	ROLLS/PALLET
SSD-SW-3470-12-NFR	12 MIL	34' x 70'	9 OR 12
